

DX International

Your route to international delivery with
freight and parcel delivery to 220 countries.

Overview.

International delivery through a partner you already know.

DX International is a value-added service for DX customers, giving you access to freight and parcel delivery to 220 countries, with road and air options for import and export requirements.

Our new online platform brings instant quotes, booking, commercial documentation and tracking together in one place, giving you an easier way to manage your international deliveries from quote through to final delivery.

Global capability. Local support.

Your consignments may travel around the world, but your relationship with DX stays close to home.

International delivery has been part of DX for many years. We've invested in new technology to enhance your experience, while retaining the expertise behind the service.

You'll continue to have the DX team behind you for your international requirements, combining worldwide delivery with a logistics partner that already understands your business.

From parcels to commercial freight.

DX International supports international requirements ranging from individual parcels to regular commercial freight.

Freight

International delivery for larger, palletised and commercial consignments, with options based on your destination and requirements.

Parcels

Worldwide delivery for individual parcels, regular requirements and higher-volume consignments.

Import and export

International delivery out of the UK, alongside support for goods coming into the country.

Road and air

Delivery options to suit different destinations, consignment types and service requirements.

220 countries. One route into international delivery.

Whether you're exporting from the UK or bringing goods into the country, you can choose from road and air options based on your destination and delivery requirements.

220 countries

Worldwide delivery coverage.

Import and export

Support for deliveries into and out of the UK.

Road and air

Options to suit your destination and requirements.

DX International. **Delivered Exactly™**.

Your international delivery, step by step.

1 Log in and get a quote

Log in to your DX International account, enter your consignment details, destination and delivery requirements and receive an instant quote.

2 Book your delivery

Choose the service that suits your requirements and confirm your booking online.

3 Customs documentation

Enter the required information and the platform will generate your commercial documentation, helping to reduce the administration involved.

4 Collection

Print and apply your label and we'll collect your consignment ready for its international journey.

5 Track your consignment

Follow your consignment online from collection through to final delivery.

The scale of DX behind every service.

DX International is part of the wider DX integrated logistics capability, supporting thousands of customers across the UK and Ireland.

Across the supply chain, our services can work individually or together to support more of your logistics requirements, giving you access to the expertise and capability you need through one integrated logistics partner.
